GOVERNMENT OF SAMOA
SAMOA BUREAU OF STATISTICS

MERCHANDISE TRADE
December quarter 2013

Key findings:

For the December quarter 2013 compared to September quarter 2013:

- Export values decreased by 22 percent (\$10.7 million) to \$37 million.
- Beer exports increased by \$5.8 million
- Import values decreased by 7 percent (\$16.8 million) to \$224 million.
- Trade deficit of \$189 million

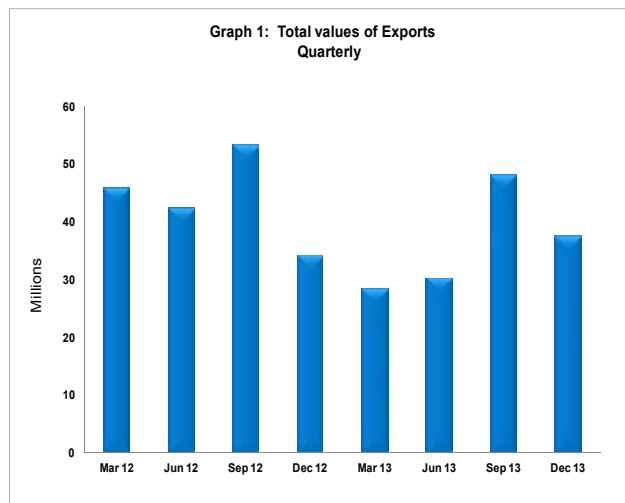

Summary

Value of Exports

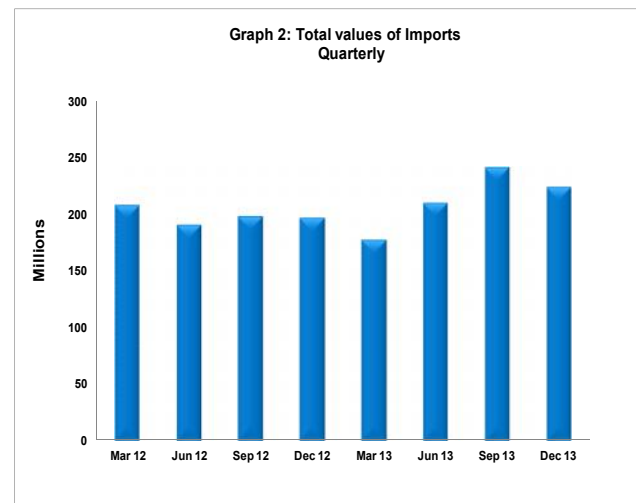

The total value of exports during the December quarter 2013 decreased by 22 percent (\$10.7 million) from the September quarter 2013. When compared to the December quarter 2012, the current value of exports was 9.7 percent (\$3.3 million) higher. (See table 1 and graph 2)

Value of Imports

The total value of imports during the December quarter 2013 decreased by 7 percent (\$16.8 million) from the September quarter 2013. When compared to the December quarter 2012, the current value of imports was 13.8 percent (\$27.2 million) higher. (See table 1 and graph 3)

Source: Samoa Bureau of Statistics

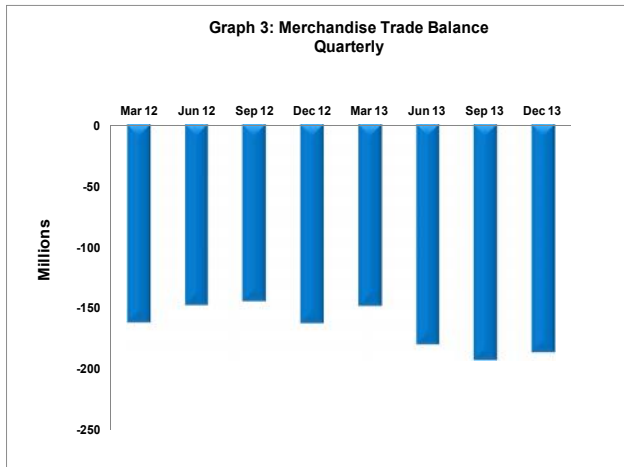

Source: Samoa Bureau of Statistics

The four quarters ending December 2013 showed a decrease of 18 percent in total value of exports over the four quarters ending December 2012.

The four quarters ending December 2013 increased by 7.4 percent in total value of imports compared to the four quarters ending December 2012.

Merchandise Trade Balance

There was a trade deficit of \$187 million in the December quarter 2013. This value was 3 percent lower than the September quarter 2013 and 15 percent higher than the December quarter 2012. (See table 1 graph 3)

Source: Samoa Bureau of Statistics

Exports.

The total value of exports in the December quarter 2013 was \$37.4 million. Of this total, domestic exports were valued at \$26.5 million and re-exports were valued at \$10.9 million.

Domestic Exports

Domestic exports were valued at \$26.5 million in the December quarter 2013. This value was 20 percent lower than the September quarter 2013 but 10.9 percent higher than the December quarter 2012. This was led by a substantial decrease in the value of ignition wiring sets and other wiring sets for vehicles exported during the December quarter 2013.

Machinery, mechanical and electrical appliances⁽¹⁾ continued to be the largest share of all commodity groups exported in the December quarter 2013 despite the decline in its value, contributing \$14.2 million (53.4 percent of total domestic exports). This value was 39 percent lower than the September quarter 2013. When

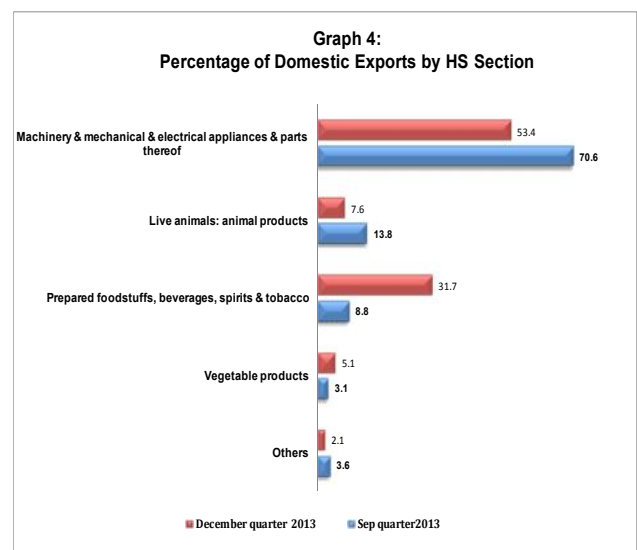

¹ The import of raw materials for manufacturing, and export of the product by the same company contributes significantly to the trade statistics for Samoa

compared to the December quarter 2012, the current value of Machinery, mechanical and electrical appliances was 14 percent lower.

Prepared foodstuff, beverages, spirits & tobacco recorded a total value of \$8.4 million (31.7 percent of total domestic exports value) in the December quarter 2013. This value was twice the value of the September quarter 2013 and four times higher than the value of the December quarter 2012. The increase was mainly driven by the export of beer during December quarter 2013.

Live animals and animal products took 7.6 percent of total domestic exports value. At \$2 million, the value of live animals and animal products exports was 56 percent (\$2.5 million) and 42 percent (\$1.5 million) lower than the September quarter 2013 and the December quarter 2012 respectively.

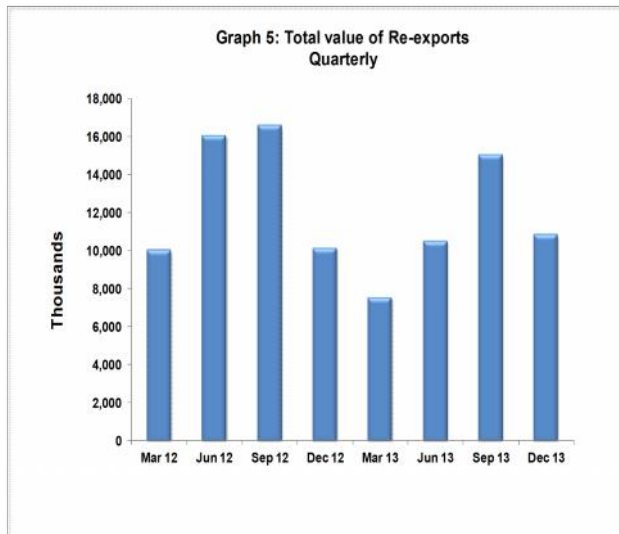

Vegetable products recorded a total value of \$1.4 million (5.1 percent of total domestic exports value) in the December quarter 2013. This value was 30 percent (\$313 thousand) higher than the September quarter 2013 and twice the value of vegetable products exports in the December quarter 2012. The rest of the HS Sections accounted for less than 5 percent each with a combined total of 2.2 percent. (See table 2 and graph 4)

Source: Samoa Bureau of Statistics

Re-exports

The total value of re-exports recorded for the December quarter 2013 was \$11 million. At \$10.9 million, the value of re-exports decreased by 27 percent (\$4.1 million) from the September quarter 2013. In comparison with the December quarter 2012, the current value was 8 percent (\$806 thousand) higher. Petroleum products constituted 83.3 percent (\$9 million) of total re-exports. (See table 1 and graph 5)

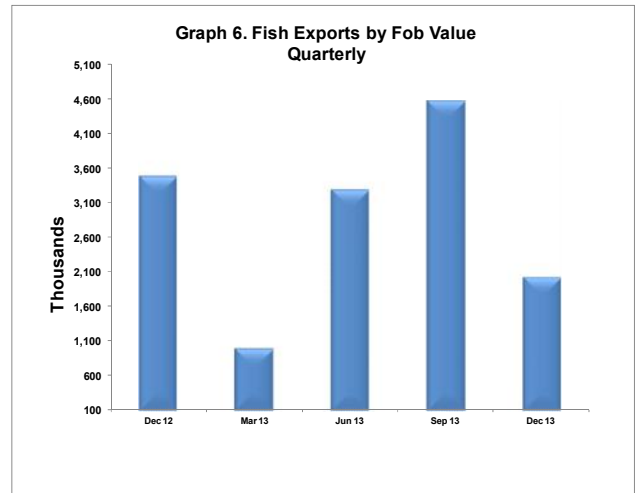

Source: Samoa Bureau of Statistics

Principal domestically produced goods ²

Fish

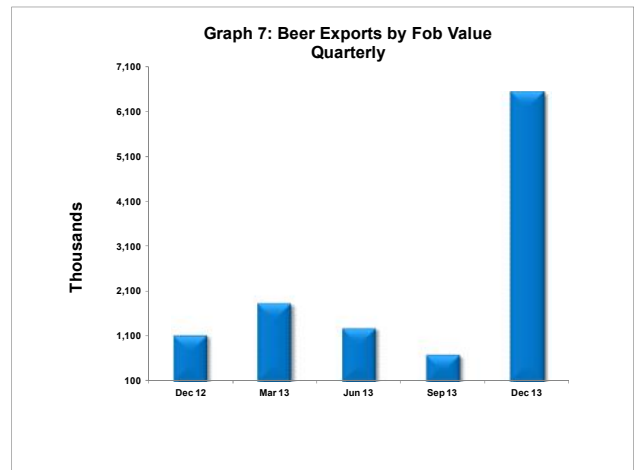

Fish exports valued at \$2 million in the December quarter 2013. At \$2 million, the total value of fish exports was 55.6 percent (\$2 million) and 41.9 (\$1.5 million) percent lower than the September quarter 2013 and December quarter 2012 respectively. New Zealand was the main country of destination contributing to 94 percent while American Samoa represented the 6 percent of total fish exported. (See table 4 and graph 6)

Source: Samoa Bureau of Statistics

Beer

Beer exports in the December quarter 2013 recorded a total value of \$6.5 million. This value was nine times the value of beer exports in the September quarter 2013. When compared to the December quarter 2012, the current value of beer exports was five times higher. Of the total, 70.4 percent (\$4.6 million) exported to American Samoa and the remaining 29.6 percent was exported to Tokelau. (See table 4 and graph 7)

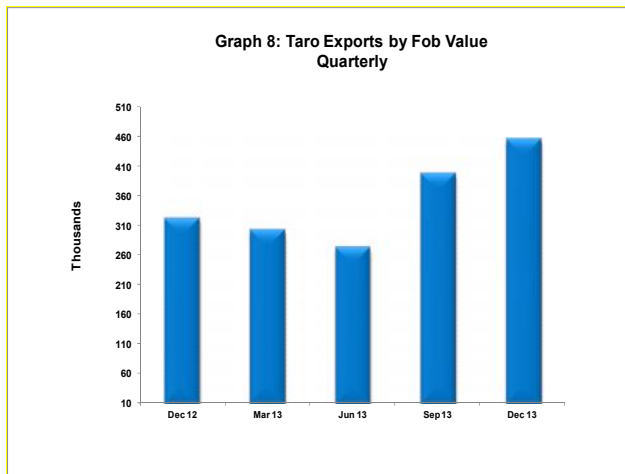

Source: Samoa Bureau of Statistics

Taro

The total value of taro exports in the December quarter recorded an increase of 14.6 percent to \$455 thousand from \$397 thousand in the September quarter 2013. In comparison with the December quarter 2012, the current value of taro was 41.3 percent higher. Exports to American Samoa made up 58 percent of total

² Principal Domestic Exports refers only to commodities produced locally.

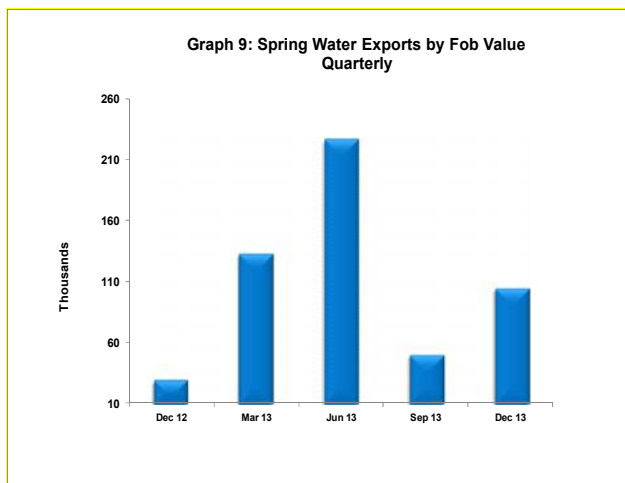

value while New Zealand represented 42 percent. (See table 4 and graph 8)

Source: Samoa Bureau of Statistics

Spring Water

Spring water exports valued at \$104 thousand in the December quarter 2013. This value was twice the value of the September quarter 2013. When compared to the December quarter 2013, the current value was three times higher. USA was the main country of destination contributing to 83 percent of total value. (See table 4 and graph 9)

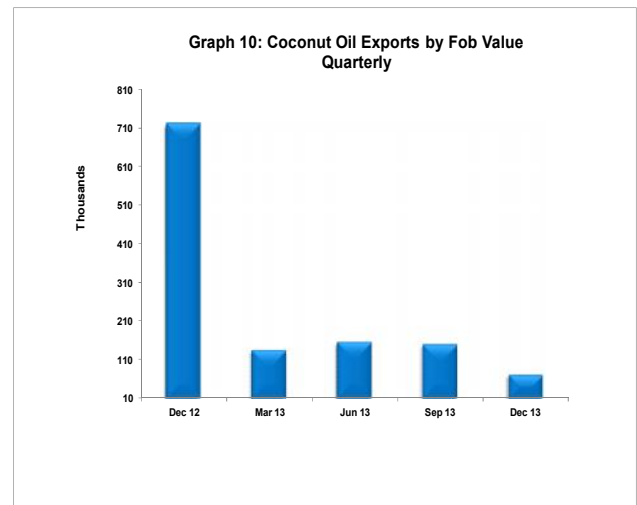

Source: Samoa Bureau of Statistics

Coconut Oil

The total value of coconut oil exports in the December quarter 2013 recorded a decrease of 53 percent from \$150 thousand in the September quarter 2013 to \$70 thousand. In comparison with December quarter 2012, the

current value was 90 percent lower. Of the total, 80 percent was exported to the United Kingdom while New Zealand represented the remaining 20 percent. (See table 4 and graph 11)

Source: Samoa Bureau of Statistics

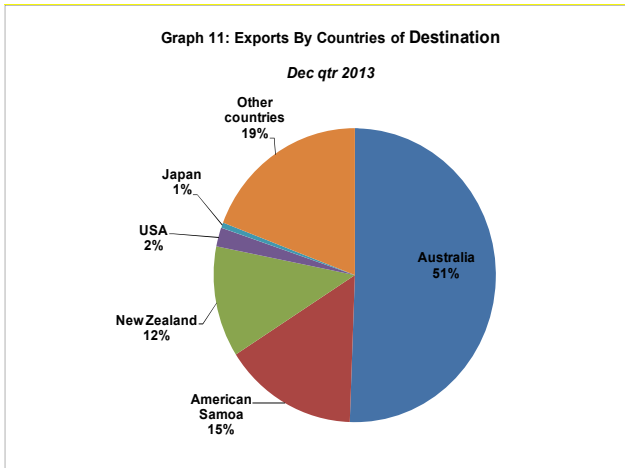

Country of Destination for Exports

Australia remained the largest export market in the December quarter 2013 despite the decrease in its value contributing 50.6 percent (\$18.9 million) of total value. This value was 33.9 percent and 10.4 percent lower than the September quarter 2013 and the December quarter 2012 respectively. The decrease was led by the export of machinery and mechanical & electrical appliances and parts thereof.

American Samoa followed with its value increasing to \$5.7 million (15.3 percent of total value) from \$2.2 million in the September quarter 2013. Beer exports were the main driver of rise in the value of exports to American Samoa in the December quarter 2013.

New Zealand represented 12.2 percent (\$4.6 million) of total exports. This value was 33.4 percent and 9.3 percent lower than the September quarter 2013 and the December quarter 2012 respectively.

USA took 2.1 percent (\$788 thousand), Japan 0.6 percent (\$209 thousand) and the remaining 19.2 percent represented other countries of destination.

Source: Samoa Bureau of Statistics

Imports

Imports recorded a total value of \$224.3 million in the December quarter 2013. This value was 6.8 percent (\$16.3 million) lower than the September quarter 2013. When compared to the December quarter 2012, the current value of imports was 14.1 percent (\$27.6 million) higher.

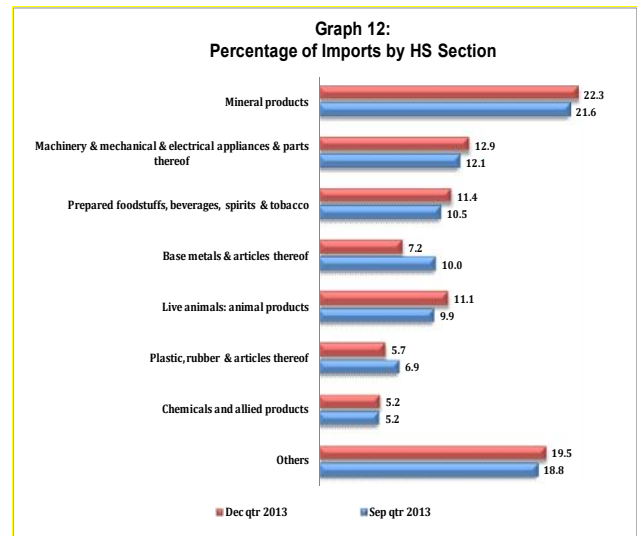

Composition of Imports

Mineral products maintained the largest share of all commodity groups imported in the December quarter 2013 with its value dropping from \$52 million (22.3 percent of total value) in the September quarter 2013 to \$50 million. When compared to the December quarter 2012, the current value was 5.6 percent lower.

Machinery and mechanical, electrical appliances and parts thereof also decreased, contributing 12.9 percent (\$28.9 million) of total value. At \$28.9 million, the value of machinery and mechanical, electrical appliances and parts thereof decreased by 1 percent from the September quarter 2013 but increased by 65 percent when compared to the December quarter 2012.

Prepared foodstuffs, beverages, spirits & tobacco recorded a slight increase of 2 percent from \$25.2 million in the September quarter 2013 to \$25.6 million. When compared to the December quarter 2012, the current value was 10.1 percent higher. Live animals: animal products accounted for 11.1 percent (\$24.8 million) of total. This value was 4.2 percent higher than the

September quarter 2013 but 3.2 percent lower than the December quarter 2012. Base metals & articles thereof accounted for 7.2 percent (\$16 million); down 32.9 percent from the September quarter 2013 while plastic, rubber & articles thereof and chemicals & allied products accounted for 5.7 percent (\$12.8 million) and 5.2 percent (\$11.7 million) shares respectively. The rest of the other HS Sections accounted for less than 5 percent each with a combined total of 24.2 percent. (See table 3 and graph 13)

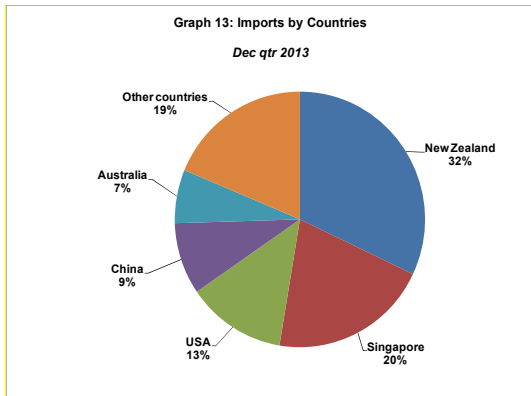

Source: Samoa Bureau of Statistics

Major Source Markets for Imports

New Zealand continues to be the largest source market for imports in the December quarter 2013 with its value increasing to \$71.7 million (32 percent of all imports) from \$63.7 million in the September quarter 2013. In comparison with the December quarter 2012, the current value was 22 percent higher. Singapore followed with a total of \$46 million (20.5 percent of total imports). This value was 7.9 percent and 7.3 percent lower than the September quarter 2013 and December quarter 2012 respectively. Imports from the USA had a total value of \$28.7 million (12.8 percent of total); down 11 percent from the September quarter 2013 but 13 percent higher than the December quarter 2012. China represented 9.1 percent of total (\$20

million); down 7 percent from the previous quarter and 22 percent higher than the December quarter 2012. Australia at \$15 million (6.7 percent of total) decreased by 15 percent and 9 percent from the September quarter 2013 and the December quarter 2012 respectively. Other countries represented 18.9 percent of total imports. (See table 5 graph 10).
