CONSUMER PRICE INDEX January 2017

Key findings:

Beginning with the January 2017 issue, the Consumer Price Index introduces a change in reporting of CPI commodity measurements from Imperial to metric unit measurements which became effective as of 1st January 2017 in line with the **Metrology Act of 2015** under the **Ministry of Commerce, Industry, and Labour**. This change in measurement reporting has had minimal effect on the CPI indices.

The Consumer Price Index for January 2017 increased by 0.5 percent compared to the previous month.

- Housing, Water, Electricity, Gas and other Fuels increased by 4.3 percent.
- Recreation and culture index also increased by 1.4 percent.
- Transport index decreased by 2.9 percent.
- The Average Annual Inflation for the year ended January 2017 was 0.9 percent.

The CPI fell 2.8 percent from January 2016.

SUMMARY

The Consumer Price Index for January 2017 was 0.5 percent higher than December 2016, and was 2.8 percent lower than January 2016.

The increase of the Local Goods component by 1.3 percent from the previous month was due to higher prices for market staples, fresh fish and electricity (kwh), which was also the main contributor to the increase of 0.5 percent in the All Items Consumer Price Index.

The Imported Goods Component recorded a decrease of 0.3 percent over December 2016. Figure 1 shows the month to month percentage changes in the Consumer Price Index by all Divisions from January 2016 to January 2017.

Source : Samoa Bureau of Statistics

Total All Divisions Contribution

Food and Non Alcoholic Beverages division along with Housing, Water, Electricity, Gas and other Fuels were the main contributors to the overall increase of 0.5 percent in the All Division Consumer Price Index.

On the other hand, there was offsetting negative contribution from Transport division with 0.5 percent.

Consumer Price Index (% Change)

The increase recorded month on month for the Food and Non Alcoholic Beverages index with 1.2 percent, Housing, Water, Electricity, Gas and other Fuels index with 4.3 percent, Recreation and Culture index with 1.4 percent and a slight increase of 0.1 percent in the Furnishing, Household Equipment and Maintenance index.

On the other hand, Transport index recorded a decrease of 2.9 percent. Miscellaneous Goods and Services and Clothing and Footwear indices both registered slight decreases of 0.3 and 0.1 percent respectively.

No changes were recorded for the Alcoholic Beverages and Tobacco, Health, Communication, Education and Restaurants indices. Graphically presented in Fig 3 is the January 2017 percentage change for all divisions from December 2016.

Source : Samoa Bureau of Statistics

Local Goods Component

The Local Goods Component of the Consumer Price Index registered an increase of 1.3 percent when compared to the previous month. This increase was mainly due to higher prices recorded for fresh fish (piece, string and large), cucumber, tomato, taamu, head cabbage and electricity (kwh).

Imported Goods Component

Decreased prices recorded for fuel (petrol and diesel) and kerosene have resulted in the 0.3 percent decrease in the Imported Good Component.

Housing, Water, Electricity, Gas and other Fuels Index

The 4.3 percent increase in the Housing, Water, Electricity, Gas and other Fuels index was a result of the higher prices recorded for electricity (kwh).

Recreation and Culture Index

An increase of 1.4 percent in the Recreation and Culture index was a reflection of the higher prices recorded for television (LCD).

Food and Non Alcoholic Beverages Index

Higher prices recorded for fresh fish (piece, string and large), cucumber, tomato and taamu is reflected in the 1.2 percent increase in the Food and Non Alcoholic Beverages index.

Transport Index

The 2.9 percent decrease in the Transport Index was a result of the lower prices recorded for fuel (petrol and diesel) and airline fare Apia-Auckland-Apia.

Underlying Indices ^{1/}

The All Items Underlying Index for January 2017 registered an increase of 0.3 percent when compared to December 2016, and an increase of 1.9 percent when compared to January 2016. The Imported Items Underlying Index registered an increase of 0.4 percent, while the Local Items Underlying Index recorded no change from the previous month.

Inflation Rate

The average annual inflation rate for the year ended January 2017 was 0.9 percent. For the twelve months ending January 2016 the inflation rate was 0.6 percent. Presented in Fig 4 is the Average annual inflation rate (January 2016 - January 2017).

The attached Tables and Graphs provide the user with more detailed analysis.

Technical Notes:

The Consumer Price (CPI) measures the rate of inflation for Samoa. It is designed to measure the change in prices for the goods purchased by households in Samoa. The CPI measures the change in prices by comparing the prices for a basket of goods and services at the collection period with the price for the same goods in a base period.

The basket of goods that is priced is based on the average expenditures of households as recorded in the Household Income and Expenditure Survey (HIES). The HIES survey identifies how much households spend on different items. The more households spend on an item on average, the more important it is to the price index, and the higher the weight in the index.

^{1/} Monthly movements in the 'headline' CPI series can be volatile. This volatility reflects price changes in particular items that may be due, among other factors, to fluctuations in commodity markets and agricultural conditions, policy changes, or seasonal or infrequent price resetting.

Underlying inflation is a measure of inflation that excludes certain items that face volatile price movements. Underlying inflation eliminates products that can have temporary price shocks because these shocks can diverge from the overall trend of inflation and give a false measure of inflation.
