

PERCENTAGE OF HOUSEHOLDS WHOSE MAIN SOURCE OF LIGHTING IS PRE-PAID ELECTRICITY BY POLITICAL DISTRICTS, 2011

According to the 2011 Population and Housing Census, Samoa have a total of **26,205 households** enumerated and from this number a total of **22,272 households or 85 percent** have pre-paid electricity or cash power in Samoa. In fact, the map above shows the distribution of 22,272 households by political district whose main source of lighting is pre-paid electricity in **percentage**. The first pattern of the map key shows that there are **11 political districts** with the highest percentage of households ranging from **(92 to 98) percent** that have prepaid electricity. However the last pattern explains that there is only **1 political district** with the lowest percentage of households that have prepaid electricity ranging from **(63 to 69) percent**. Moreover, of the total number of households (22,272) that have prepaid electricity, **77 percent or 17,141 households** have prepaid electricity in Upolu including (Manono and Apolima) compared to only **23 percent or 5,131 households** in Savaii that have pre-paid electricity.
